Ü-2

Ün Modern Living is a space that combines good design, respect for the environment and the experience of being in nature.

Its design was thought so that humans, nature and the community live in harmony, that is, they coexist. This is achieved through the use of natural materials, green spaces and a design that promotes the well-being of its inhabitants.

The tower consists of: 6 levels, 1 parking level, 28 apartments, 3 penthouses, amenities, elevator and more.

It also has landscaping inspired by the natural landscapes of the Mexican jungles and a very fresh atmosphere. The design promotes the flow of air and natural light inside as if the tower were breathing called the core.

Prices are subject to change without prior notice and availability.
